Instructions: Business Tax Registration Application

General Information

The Business Tax Application is used to apply for tax registration for Tennessee's business tax. This application cannot be used to register for other Tennessee tax obligations. Businesses must register for sales tax, franchise and excise tax, and other taxes online at www.TN.gov/revenue or by paper application.

Registration for business tax using this application will not be complete until you have paid the business license fee and obtained your business license from the appropriate county clerk and, if applicable, your city business tax official.

You must submit a fully completed the application in a timely manner to ensure that you are properly registered for this tax or you may make your application online. For information on how to register your business online, visit the Tennessee Department of Revenue's website at www.TN.gov/revenue and click on E-file and Pay.

You must complete one application for each business location. Upon registration, your county clerk or city official will issue your business tax license. A \$15 fee is required for your initial license. Once registered, the local licensing official will send your record electronically to your city or county official based on your location. You must also pay the required \$15 fee for the initial license at the appropriate city/county official's office.

A standard business license is renewed by the annual payment of tax to the Tennessee Department of Revenue. Once this tax is paid each year, the county clerk or city official will provide a license for the next year. There is no charge for a renewal license.

Business tax minimal activity licenses are renewed each year by payment of an annual \$15 fee.

It is important that you notify the Tennessee Department of Revenue if:

- The business ownership changes in any manner including:

How do I file business tax online?

1. Login to TNTAP.
2. Select "Business Tax" link. If you don't see your account, then gain access to your account.
3. Click "File Return."
4. You can upload a CSV file on this first screen. This is not typical for most filers. Click "Next".
5. Upload any supporting documents. Click "Next".
6. You will see all locations available to file along with the city and county that location is filing for. Select that location ID, and you will be able to enter gross sales at that location.

Note: If you are a class 4, or class 3 cable provider, your location may only be for the city tax and you will enter your sales on line 7, not line 1.

7. Enter in your sales for all locations, and then click "Next". You will be able to make a payment and submit your return.

How do I renew my business licenses? My local clerk said I would have to renew through the Department of Revenue.

The renewal process is simple. You must electronically file your annual county or city business tax return for the license to be renewed through the Department of Revenue's filing program. You must also report your gross receipts for the reporting period and pay the business tax due on the return.

Business tax can be filed electronically in TNTAP here: <https://tntap.tn.gov/eservices/>.

In TNTAP, the business tax account is consolidated; therefore, the gross receipts for all locations will be reported on one return.

Once your return and tax payment have posted to your business tax account, the Department will notify the respective county or city business tax official that your liability has been paid for the reporting period. The local business tax official can then issue you a renewal business license.
